

# Daniel Vera

Software Engineer -

Jr. Full Stack developer ready to help your business grow.

## EXPERIENCE

### **iManagement inc., Various — On-Site Trade-Show tech/QA**

2017 - 2018

Our team implemented an ordering system using iPads for over 400 vendors to track inventory and interface with buyers.

### **Various Photographers, NYC — Digital Tech/Photo Assistant**

2005 - Present

Managed tethered captures during photo shoots, Calibrated monitors, Setup and adjusted multi light photoshoots with seamless backgrounds

### **ROOT NYC, NYC — Digital Capture Coordinator**

2012 - 2013

Produce digital equipment for multiple locations and onsite photoshoots.

Worked directly with each photographer to find solutions for their needs.

### **Pratt Institute, Brooklyn, NY — Digital Print Lab Manager**

2007 - 2008

Implemented a zero down-time color calibrated print lab that produced projects for a quarter of the student body.

### **Zagat Survey, NYC — Software Quality Assurance Analyst**

2000 - 2002

Stress tested websites to identify bottlenecks

Used SQL queries to validate results from web queries
